THE PREFACE TO THE ENGLISH and FRENCH DICTIONARY.

THE neceſſary remarks upon the firſt part being already made, it remains to explain the plan which I have followed through the laſt part. The irregularities of the Engliſh language are taken no notice of therein, not only becauſe they are ſuppoſed to be well known to the Engliſh readers, but alſo, becauſe the knowledge of them is of no uſe toward the attainment of the French tongue.

When a Participle Paſſive is only conſidered as making part of a Verb, it requires no farther explanation than the other parts of that Verb; but when it has ſome meanings peculiar to itſelf, I conſider it as an Adjective, and give it a place in this Dictionary.

I am at a loſs to find out why Mr. BOYER has not marked the genders of the Nouns Subſtantive, in his Engliſh and French Dictionary. It being impoſſible to ſpeak good French without being well acquainted with thoſe Genders, this omiſſion obliges the learners to have recourſe to his French and Engliſh Dictionary; and it is to ſave them ſuch an uſeleſs trouble, that I have, in this part, placed the Gender immediately after every Noun Subſtantive, except an Adjective, ſhewing that Gender, be joined to it.

The Conjugations, which in the firſt part are denoted by the numbers 1, 2, 3, 4, 5, and 6, are marked in this by the vowels

a, e,

a, e, i, o, u, and y. This is done to avoid confuſion, and prevent the learner from miſtaking the marks of the different Conjugations for thoſe of the various meanings of words.

If it be aſked, Why the Engliſh Dictionary is larger than the French? I anſwer, That it muſt neceſſarily be ſo; not only as the Engliſh language is more copious than the French, but becauſe the various meanings of the French words are, in the French Dictionary, eaſily explained by Engliſh words alone; whereas the Engliſh words muſt, in the Engliſh Dictionary, be explained in Engliſh, before the correſponding French words be joined to them: For inſtance, the article *Studious*, *adj.* may be worked out two different ways. If it be thus worked out,

> Stúdious, adj. 1 *ſtud-ieux*, *ieuſe*; *qui aime l'étude.* 2 *diligent.* 3 *attent-if*, *ive*; *ſoign-eux*, *euſe.* 4 *propre à la contemplation*,

it will be eaſily underſtood by the Engliſh who are acquainted with the French language; but it will be unintelligible to thoſe who are utter ſtrangers to it. This article muſt therefore be worked out in the following manner,

> Stúdious, adj. 1 (given to books) *ſtud-ieux*, *ieuſe*; *qui aime l'étude.* 2 (diligent) *diligent.* 3 (attentive to, careful) *attent-if*, *ive*; *ſoign-eux*, *euſe.* 4 (ſuitable to contemplation) *propre à la contemplation.*

By comparing moſt of the articles of this Dictionary with thoſe of BOYER's, it will appear, to every unprejudiced reader, that thoſe articles contain, in the firſt, all the ſignifications of the Engliſh words; whereas in the laſt they comprehend but few. Out of ſome thouſand articles I have ſelected two; *viz. To vary*, *v. a.* and *To vary*, *v. n.* which run thus in both Dictionaries.

BOYER's.	DELETANVILLE's.
To váry, v. a. *varier*, *diverſifier*, *changer.*	To váry, v. a. 1 (to change, to make unlike itſelf) *changer*, a. *varier*, a. 2 (to change to ſomething elſe) *changer*, *varier.* 3 (to make of different kinds) *varier*, *diverſifier*, a. 4 (to diverſify, to variegate) *diverſifier*, *varier.*

BOYER's.

To váry, v. n. *varier, changer.*

DELETANVILLE's.

To váry, v. n. 1 (to be changeable, to appear in different forms) *varier*, a. *paroître ſous des formes différentes*, u. 2 (to be unlike each other) *varier, différer* or *être différent l'un de l'autre*, a a, o. 3 (to alter, to become unlike itſelf) *varier, devenir différent de lui même* or *d'elle-même*, e. 4 (to deviate, to depart) *s'éloigner* or *ſe départir de*, a, e. 5 (to ſucceed each other) *ſe ſuccéder l'un à l'autre*, a. 6 (to diſagree, to be at variance) *différer, être d'une opinion différente*, o. 7 (to ſhift colours) *varier, prendre des couleurs différentes*, y.

Whenever no correſpondent French words can be found to ſhew the meanings of an Engliſh word, thoſe meanings are explained in Engliſh and French ſentences, placed immediately after the various meanings of the words. It is in the ſame places that the reader will find the Engliſh proverbs and idiomatical phraſes.

m ſtands for maſculine, and *f* for feminine. When any one of thoſe letters is placed at the end of a ſentence, it relates only to the firſt word of it, whoſe gender it denotes; but if two or more of thoſe letters are found together at the end of a ſentence, the firſt relates to the firſt word, the ſecond to the ſecond word, and ſo on.

An hyphen, parting a noun ſubſtantive, denotes the irregularity of that noun, and ſhews, that the letters placed after *pl.* are to be uſed inſtead of thoſe that follow the hyphen, to form its plural: for inſtance, *mart-eau*, pl. *eaux*, ſhews that *marteau*, a hammer, has in its plural *marteaux*, hammers.

If a noun adjective be parted by an hyphen, that hyphen denotes the irregularity of that adjective, and ſhews that the letters which come after the comma muſt be uſed inſtead of thoſe which precede it, to form its feminine: for inſtance, *génér-eux, euſe*, ſhews that *généreuſe* is the feminine of *généreux*, generous.

An Engliſh participle active, beſides the meaning of the French participle active, denotes the act of doing or omitting any thing.

When

When it has only thoſe two ſignifications, it makes part of an Engliſh verb, and requires no more notice than the other parts of an Engliſh verb; but if an Engliſh participle active has any other import or imports, it is found under a particular article in this Dictionary.

I ſhall conclude this Preface by obſerving, that many things, relating to the Engliſh part of this Dictionary, are left unexplained, becauſe they are ſuppoſed to be underſtood by the Engliſh readers, for whoſe uſe alone it is intended.
